### Immediate Benefits of Attending Coal Prep...

1. **Leading-edge education** that will build your skills and increase your professional stature
2. **One-stop convenience** for finding the most cost-effective solutions for your equipment & product needs
3. **Innovative processes** to improve your plant operation
4. **In-depth information** on the latest industry trends and developments.
5. **Up-to-the-minute updates** on changing regulations

### The Unparalleled Educational and Product Research Event For the International Coal Prep Community

Coal Prep is the exclusive gathering place where the world's leading industry professionals come together to share new ideas and discuss proven techniques for coal preparation plant technologies.

More than 200 quality suppliers turn out to display the most updated equipment, products and services, providing expert guidance on how they can work with you to improve efficiency in your operation. It's a friendly, relaxed environment where you can create new working relationships and renew important professional acquaintances.
